

ROYAL

SYSTEM
1

Recyclable “anywhere floor.
No nails, no glue.

Usage areas

Bergo Flooring has developed a wide range of flooring products for different environments. BERGO ROYAL is specially developed for usage areas such as: Balconies and patios, garages, storage rooms, basements, bathrooms, saunas, pool areas, showers and laundry rooms and other residential applications.

Advantages

- Easy to install
- Good drainage capability
- Ventilates the floor underneath
- Can be used both indoors and out
- Movable
- Minimal maintenance
- Attractive, durable and practical!

Easy to install

Tapping a rubber mallet or similar over the protruding rings easily interlocks the tiles together. No special tools, glue or screws are required. Use a jigsaw to cut the tiles for a perfect fit.

Minimal maintenance

Bergo tiles require virtually no maintenance. Normal floor care such as occasional wiping with a damp cloth, vacuuming and/or hosing is usually all that is needed. BERGO ROYAL can stay outside in both summer and winter. Your floor will be in good condition year after year.

Accessories

- Edge strip – 300 x 55 mm, for a smart and safe finish.
- Corner strip – 55 x 55 mm.
- Expansion strips should be installed every 8th tile when the length or width of the surface exceeds 4.8 m.
- Expansion Cross-piece – 75 x 75 mm, to be used as two lines of the above Expansion strips intersect with each other.
- Disassembly-tool – for easy disassembly and rearrangement.
