

SNOWMAKING

SPARE PARTS

OUR COMPANY

Created in May 1993 in Annecy, IDM started in order to propose a manufacturers' offers alternative to ski resorts for ski lifts and snow grooming spare parts industries. Right from the first year, the ski resorts demand was indisputable. Our clients acknowledged the know-how, the availability, the responsiveness and the proximity of the young company.

In 2010, following the takeover of the company S2M for which the activity was exclusively reserved to manufacturers, IDM offers a new and wide snow making range of products.. Specialised in hoses production, today we complement our offer and reach out snow makers in order to reproduce the same strategy wich has initially ensured our success in ski lifts areas. Moreover, we also offer valve body repairs, hoods and transport sledges that complete our range of products.

In view of hoses diversity, hydraulic existing parts and various designations, you will find below the most important and essential features to provide us in order to realize a quotation.

Inside diameter

- 1" - 1/2 "
- 1" 1/2 - 3/4 "
- 2" - 5/8 "

Connector material

- Aluminium
- Stainless steel

Edge to edge size

Depends on your needs

Operating pressure

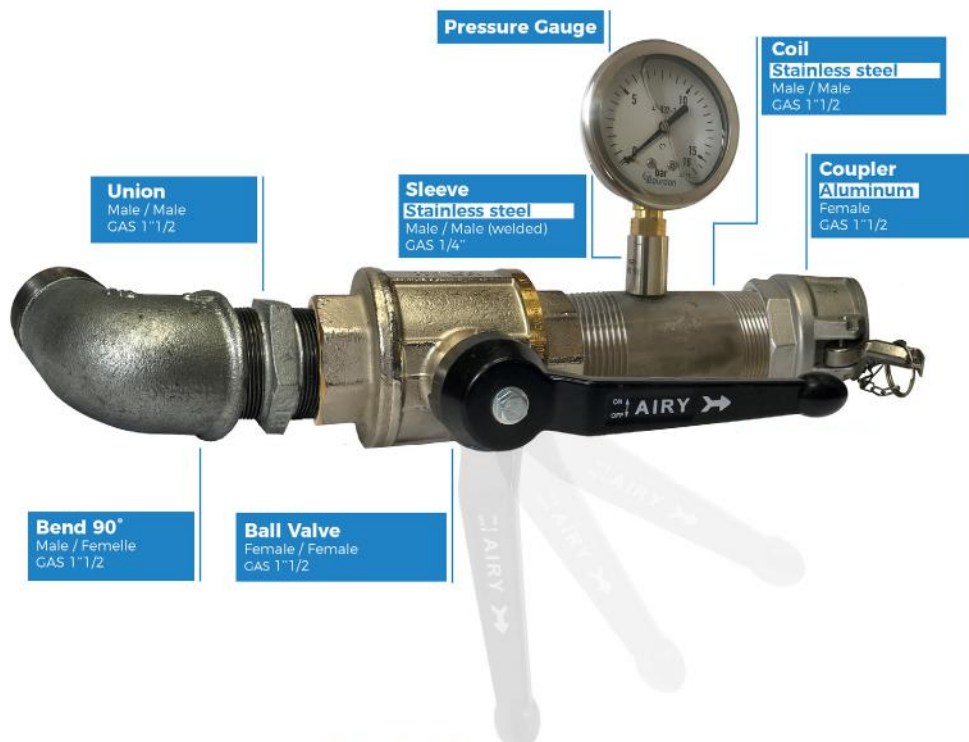

- 20 bars
- 60 bars
- 100 bars

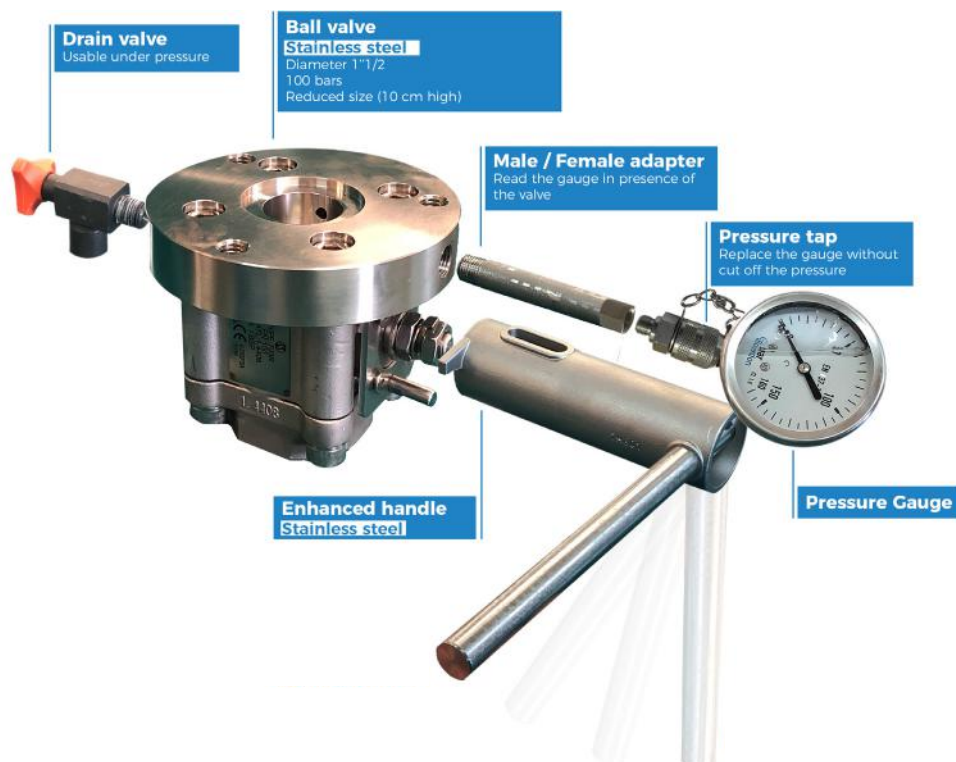

BLOCK VALVES FOR YA & YB

AIR

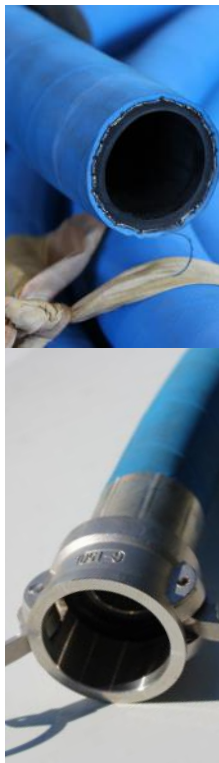

WATER

SNOWMAKING HOSES AND SKIRT

HOSES

	SEMI-RIGID AIR & WATER	COMPRESSED AIR
COMPOSITION	<ul style="list-style-type: none"> - Synthetic elastomer abrasion resistant oil mist resistant - External protection UV & ozone resistant - Metal framework 	<ul style="list-style-type: none"> - Synthetic elastomer abrasion resistant oil mist resistant - External protection UV & ozone resistant - Textile thread
TEMPERATURE	- 40 / +100°C (-40 / 212 °F)	- 10 / +60°C (14 / 140 °F)
MWP	100 bars	20 bars
DIAMETER	<ul style="list-style-type: none"> - 1" - 1" 1/2 - 2" 	<ul style="list-style-type: none"> - 1/2 " - 3/4 " - 5/8 "
LENGTH	Any length on request	
ADDITIONAL SERVICES	Repair service of damaged hoses by leak detection Pressure resistance tests	

SLEEVE

DIAMETER	<ul style="list-style-type: none"> - 1" - 1" 1/2 - 2" 	<ul style="list-style-type: none"> - 1/2 " - 3/4 " - 5/8 "
COMPOSITION	Steel	

FLAT FOLDABLE HOSES

COMPOSITION	Flat hoses made up of wire reinforced	
TEMPERATURE	- 30 / +70°C (-22 / 158 °F)	
MWP	60 bars	
LENGTH	20 m / Any length on request	
DIAMETER	2" (1" 1/2 on request)	

ADAPTERS

ADAPTER TYPE A

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

ADAPTER TYPE E

DIAMETER	- 1"	- 1/2"	- 2" (Reduced tail : 1" 1/2)
	- 1" 1/2	- 3/4"	
	- 2"	- 5/8"	

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

ADAPTER TYPE F

DIAMETER	- 1"	- 1/2 "
	- 1" 1/2	- 3/4 "
	- 2"	- 5/8 "

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

REDUCED TAIL ADAPTER

DIAMETER	Adapter : 1" 1/2
	Tail : 1/2"

MATERIAL	Stainless steel
----------	-----------------

ADAPTER TYPE MR10 + SEALS

DIAMETER	- 1/2"
----------	--------

MATERIAL	Stainless steel
----------	-----------------

ADAPTER CAP TYPE DP

DIAMETER	- 1"	- 1/2 "
	- 1" 1/2	- 3/4 "
	- 2"	- 5/8 "

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

Other diameters on request

COUPLERS

COUPLER TYPE B

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

COUPLER TYPE C

DIAMETER	- 1"	- 1/2"	- 2" (Reduced tail : 1" 1/2)
	- 1" 1/2	- 3/4"	
	- 2"	- 5/8"	

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

COUPLER TYPE D

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

COUPLER CAP TYPE DC

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

MATERIAL	Aluminum - Stainless steel
----------	----------------------------

STEEL TIPS

FEMALE ELBOW 90°

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

MALE / FEMALE TIPS

DIAMETER	- 1"	- 1/2"
	- 1" 1/2	- 3/4"
	- 2"	- 5/8"

Other diameters on request

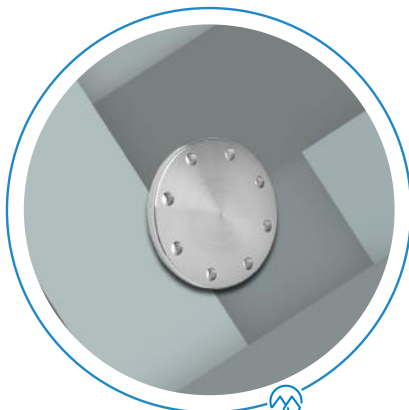

TAPS

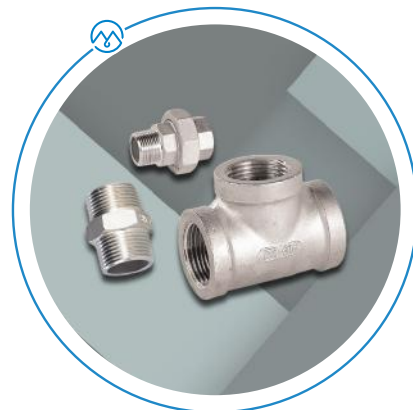

To offer the most consistent answer to your need, you can provide us following information : **material, diameter, type of adapter / coupler, maximal working pressure (MWP), visual, picture, blueprint or manufacturer equivalence.**

1/4 turn valves

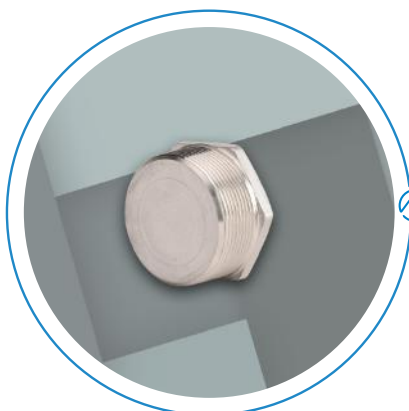

Flanges

Nipples, sleeves,
couplers

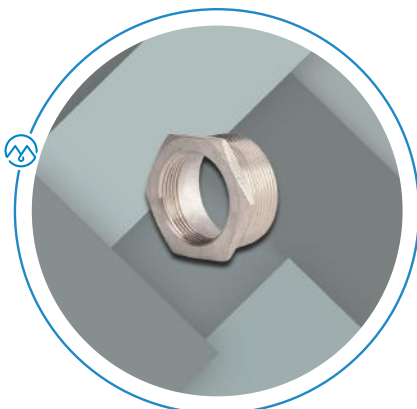

Bends

Caps

Coils

Unions

Seals

TRANSPORT SLEDGES

Developed in close collaboration with the operators of ski resorts, **our transport sledges** meet all needs and facilitate material and goods transport within the ski area.

Sledges for scooters and snow groomers

Tipping sledges

Fire equipment sledges

Waste container sledges

VALVE BODY REPAIR

As technical partner for the mountain, we strongly highlight the proximity with our clients. We want to support each of them for the use, the operation and the maintenance of their snow making equipments.

In this way, we offer our services for :

Valve body repairs (all manufacturers)
Retrofits

HOODS

IDM offers **tailor made hoods** concerning size, shape, or any other features.

We analyze your issue in order to advice you and suggest the best product according to your needs.

LOW PRESSURE SNOW GUN COVERS

UNIQUE COLOR

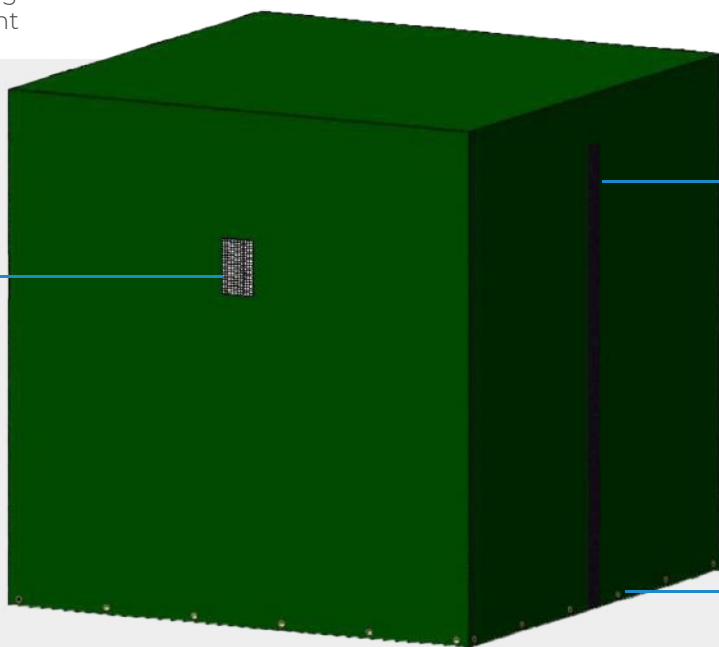

For a better integration into environment

Aeration grid

Option : **company logo imprinting** (38cm x 23cm) or the visual of your choice

Velcro tape on the height

Closing Eyelet

Available for models :

T40

T60

TF10

Tailor Made

FEATURES

Canvas : PVC DICOPLAN 680 gr/m²
Fixation : Eyelet & Sandows
Aeration grid

DIMENSIONS

Tailor made production according to your equipment dimensions

COMPOSITION

PVC DICOPLAN 680gr/m² - Green color
Eyelet in the upper and lower parts for a better tightening.
Aeration grid
Velcro tape on the height
Sandow included

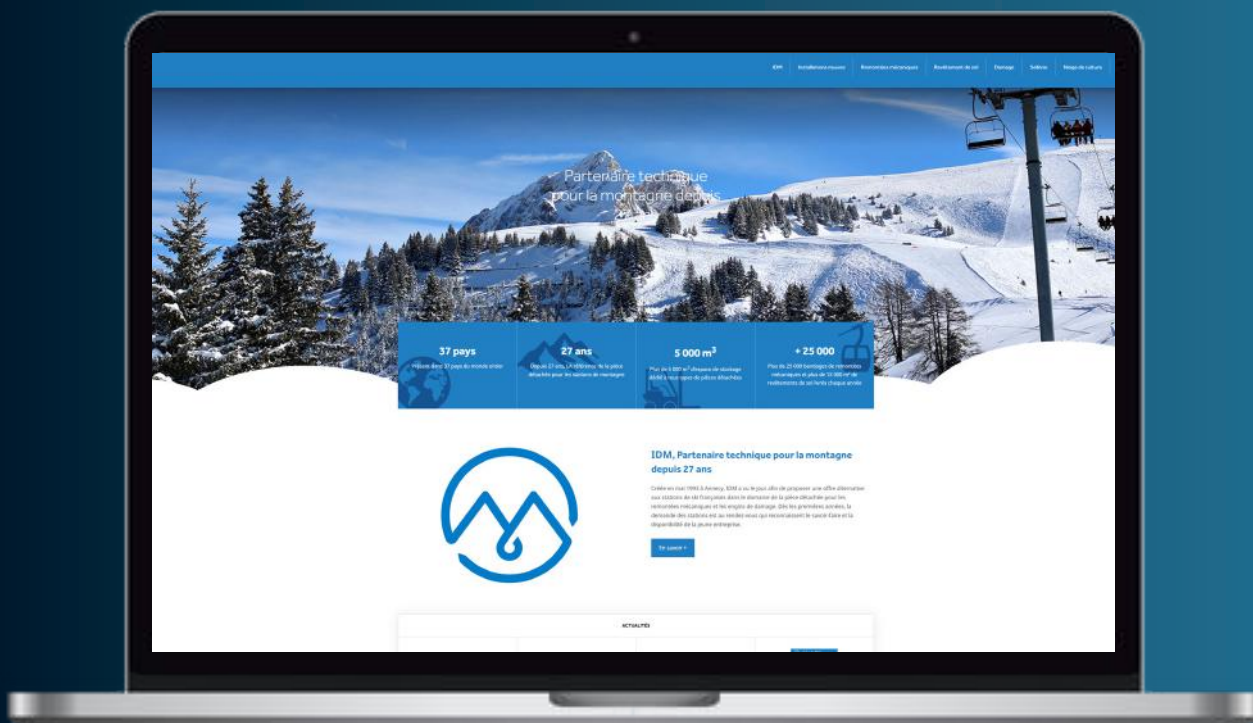

Protect your snowguns during the summer period. avoids many handling hours, an heavy storage & effects linked to UV that may damage equipments during summer. Moreover, to limit manipulation on machines reduces the number of workplace accidents.

Our customizable covers are equipped with aeration grid in order to avoid the overheating and condensation. . An «Easy to close» system is included thanks to velcro tape on the height.
